## INTRODUCTION

Title XX of the Social Security Act provides states with federal funds for social services. In 1981, Congress amended Title XX, making it a Social Services Block Grant (SSBG), thereby giving states consideration flexibility in the use of the federal dollars. Under the Act, states are required to make an annual report to the Secretary, Department of Health and Human Services (DHHS), on the intended use of Title XX funds. The Pre-Expenditure Report must satisfy the statutory requirements of the Act by relating:

- a. The intended use of the Title XX funds;
- b. Information on the type of activities to be supported; and
- c. Information on the categories or characteristics of persons to be served

The Pre-Expenditure Reports fulfill the statutory requirements of Title XX of the Social Security Act and regulatory requirements at 45 CFR Section 96.10 (1981).

Services will be offered to help clients reach one or more of the five federal goals which have been identified by Congress for Title XX:

The Virgin Islands Department of Human Services SSBG-funded services will be directed toward one or more of the following goals:

- I. Achieving or maintaining economic self-support to prevent, reduce or eliminate dependency.
- II. Achieve or maintained self-sufficiency including reduction or prevention or dependency.
- III. Preventing or remedying neglect, abuse or exploitation of children and adults unable to protect their own interests
- IV. Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care.
- V. Securing referral or admission for institution care when other forms of care are not appropriate or providing services to individuals in institutions.

The goals of DHS, and the federal SSBG are very much aligned, particularly in the areas of achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency and preventing and remedying neglect, abuse, or exploitation of children and adults unable to protect their own interest or preserving, or reunifying families.

For the past thirty (30) years, SSBG funds have been used by the Virgin Islands Department of Human Services (DHS) to supplement, expand, and strengthen traditional services to families, children, and adult individuals in need. The services provided through the federal grant program continue to be a valuable safety net for the residents who experience some form of financial, familial, social, or health related crisis

Since the two category five (5) hurricanes Irma and Maria in September of 2017 the department has seen a tremendous need for some of the program on the SSBG. Many residents are requesting home delivered meals and home maker services. Some families are caring for their loved ones at home but need assistance while they are working.

The Kids Count Data Book suggests some startling data regarding the Virgin Islands economic recovery. The 2018 publication indicates, while data shows improvements in child health and education, more families are struggling to make ends meet, and a growing number of kids living in poverty.

With regard to older adults, the data presented herein substantiate the need for continued services and programs that address this and other vulnerable populations. This comes as a poignant concern based on two emergent issues. First, as the "baby boomer" population continues to age and the desire is to maintain persons in the community as long as possible, the need for services and related interventions are expected to increase; and second, as the life expectancy continues to increase, the need for specialized supportive services, such as meals on wheels, Alzheimer's care and home health services continues to emerge as a growing need.

## **I. State/Federal Fiscal Year covered in Pre-Expenditure Plan**

The Pre-Expenditure Plan covers the Federal Fiscal Year 2021 beginning October 1, 2020 and ending September 30, 2021.

In accordance with Section 501 of PL95-134 of the Omnibus Territories Act as amended, 48 USC 1469, the Virgin Islands Department of Human Services is submitting a continuation grant proposal to the U.S. Department of Health and Human Services for consolidation of the following grants under the Consolidated Block Grant.

The Department of Human Services, in accordance with the United States Virgin Islands Government Reorganization Act of 1987, Act No. 5265, Title II, Section 432, is the designated state agency for the consolidated grant awards.
